From where I sit... by Joe Marsh

Ever Have
That "Sinking" Feeling?

You probably know that "Chip" Wallace was just appointed swimming instructor at the Boys Club. Seems in his first group, he had three youngsters who were hesitant even about the shallow end of the pool. They said "we'd sink." Of course, Chip didn't try to force them—he demonstrated. He jumped in, popped right up, explained that body buoyancy had pushed him back to the surface. However, one of the youngsters shook his head in disbelief. "Gee," he said, "I sure

hope Mr. Buoyancy is still down there when I jump in." From where I sit, whoever said "experience is the best teacher" was right. For instance, I think all of us know—through experience—how important "tolerance" is between neighbors. In little things too, like my respecting your right to choose a favorite beverage—and your respecting my choice of an occasional glass of beer. That way we'll swim-not sink—as friends!

Plan Republican Rally For Fourth Of July

Citizens of this community and throughout northern Michigan are invited to an Old-Time July 4th Celebration and Republican Rally to be staged at Lake Valley Resort, halfway between Grayling and Kalkaska, just off Highway M-72. The event is being sponsored by the Kalkaska County Lincoln Club.

An afternoon and evening of celebration has been scheduled, commencing at 2:00 p.m. with a roast and the opening of refreshment stands, serving to continue 'til 6 p.m. This is your opportunity to meet and hear the Republican candidates, on both the state and local level in the forthcoming Primary Election in early August. Commencing at 7 o'clock a program of music, song fest and introduction of the various candidates will be held. This will be followed by a fireworks display and a social evening with dancing under the stars.

An admission charge of \$2.00 for adults and \$1.00 for students under 16 will be made. The admission charge includes free parking, beverages, ox roast, song fest, fireworks and dancing. All proceeds will go to the Republican Party. For more information or tickets contact Mrs. R. L. Westerman, Alpine 8-5264, or any Lincoln Club member. There are also tickets at Lake Valley Resort for your convenience. Bring the family and celebrate the 4th of July in the good old-fashioned way.

A Handbook For Voters . . .

Each election year multitudes of "get out the vote" campaigns are conducted. This is all to the good, but one more thing is needed—namely, informed intelligent voting.

A new paperback by John A. Wells, entitled "The Voter's Presidential Handbook," (McDowell Obolensky, New York) does an excellent job of filling that need. Sponsored by the Committee to Inform the Voters, it provides in concise and readable form a history of the office of the president along with description of his powers, duties and responsibilities; biographies of the 1960 presidential possibilities of both the parties; a discussion of how each individual can be active and effective in politics; the way the national party conventions operate in choosing their presidential and vice presidential candidates; and a wealth of other valuable matter.

Mr. Wells dedicates his book "to the independent voter who, even if a member of a political party, does not blindly follow party dogma or a party leader, but thinks for himself and votes for the candidate or proposition he believes best for the people." The country sorely needs more voters of that kind.

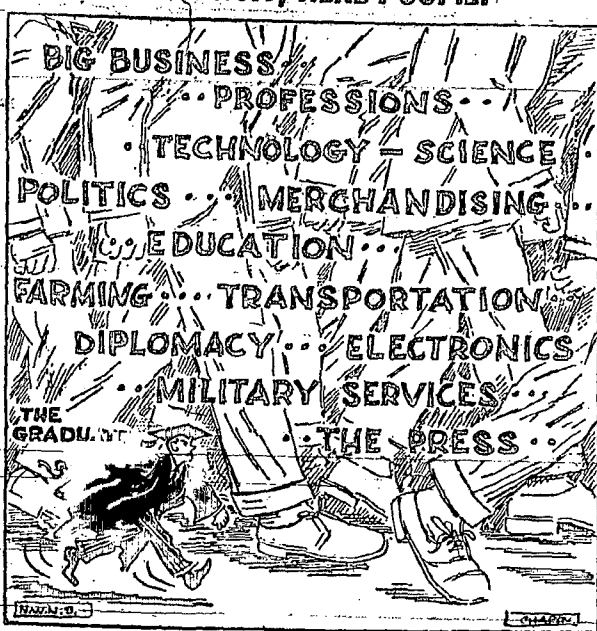

Political Spenders Promote Inflation

The 1961 anticipated federal budget surplus of \$4.2 billion is in definite danger, as a factual report by the Council of State Chambers of Commerce shows.

Current proposed spending bills, which are not provided for in the budget, would, if enacted, wipe out most if not all of the surplus, even if the optimistic estimate of revenues is attained. Here are some examples:

School aid measures would cost from \$325 to \$900 million a year; a depressed area's bill would cost \$251 million; a federal pay raise bill would cost \$800 million or more; an emergency housing bill would cost a round \$1 billion; a peacetime ex-servicemen's benefits bill would cost \$200 to \$400 million; and a measure to provide federal grants for medical care to aged persons would cost \$400 to \$800 million. On top of that, if

"GANGWAY, HERE I COME!"

Congress fails to enact proposed postal rate increases, there will be an additional unbudgeted cost of \$550 million.

To make a bad matter even worse, the impact of these new spending measures on future budgets would be still greater than in 1961.

So, if anyone thinks the danger of inflation is really lessening, and that federal income is at last to balance or exceed federal expenditures, he'd better do some more hard thinking. Eternal vigilance is not only the price of liberty—it's the price of solvency.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVALANCHE OF 23 YEARS AGO

June 24, 1937

For several months past the question of where the building line on Michigan Avenue is to be has been a much-discussed question and it appears that it is not yet settled. The council stood divided on the permit question—3 in favor and 2 against. The case was withdrawn from the court and apparently was settled. However, when people could observe just how the new buildings were to come out to the middle of the sidewalk there seemed to be a general uprising of protest. Accordingly a protest meeting was held at the offices of Dr. Stealy on Tuesday afternoon and it was decided that a meeting be requested to be held in conjunction with the City Council the next forenoon for reconsideration of the matter. The council is considering the matter of making straight parking spaces \$5.00 per front foot for the property, thus making it impossible for anyone to build out in front of the present used building line.

Construction of Grayling's new sewage treatment plant has been begun, and is located on the property the city of Grayling purchased some time ago from T. J. Wells. Davenport and Watson of Lake City are the building contractors, the city's interests being looked after by A. T. Kinze, engineer of Detroit, and Herman is the Federal resident engineer. Collins, who is in charge of the plant is \$29,700 with a part of it covered by P. W. A. grant of \$7,200.

Tiny's Beauty Parlors are now fully settled in their new quarters. Workmen have been busy for several weeks rebuilding the structure and now, with its new front and white and green asbestos siding this place makes an appealing appearance. The work was done by Anton Kangas, assisted by Carl Lauri, and it's an attractive job.

The three Grayling young men, Bob Hanson, Eddie Cuyler and Walter Smith—who just returned home from Cincinnati where they had worked-out with the Cincinnati Reds, report a great time. The fellows are bursting with enthusiasm and can't say too much for the way they were treated by the players, especially Hazen "Kid" Cuyler, center fielder for the Reds, and Lou Rizzo, third baseman. Arrangements had been made thru Mr. Cuyler for the boys to get the privilege of workouts with their team by Willard Cornell, local high school athletic director. All three of the boys had workouts with the Reds prior to three different games. Chalker worked at second base, Hanson at short and Smith in center field.

Mrs. B. A. Cooley entertained the business women at a shower Thursday evening at her home honoring Mrs. Ronnow Hanson (Marion Reynolds). This evening Mrs. Frank Sales is entertaining for Mrs. Hanson.

Frank May Jr. is visiting relatives in Pinconning for several days.

Lawrence Hunter of Pontiac spent the weekend with his family here.

Mr. and Mrs. Clare Smith and family, Mr. and Mrs. Ernest Larson and son Ronald, Mrs. John Burke and daughter Oral, and Nelson Vollmer visited friends in Traverse City Sunday.

Mr. and Mrs. Roy Smith moved Saturday into their new home on the south side that has been completed. They had been living with Mrs. Smith's parents, Mr. and Mrs. A. E. Hendrickson until their home was ready to move into.

George Mason of Detroit spent the weekend at his cottage on the South Branch of the AuSable, making the trip in his plane.

Mr. and Mrs. George Daniels (Helen May) of Midland were guests of her parents, Mr. and Mrs. Frank May, over Sunday.

Miss Veronica Lovely has returned to her nursing studies at Hurley Hospital, Flint, after enjoying a vacation at her home here.

Mr. and Mrs. Charles David of Flint spent the weekend visiting the latter's parents, Mr. and Mrs. E. E. Bugby. On their return home they were accompanied by Joyce and Bobby Bugby, who will remain there for a two weeks visit.

Mrs. Algot Johnson and daughter Agda, Mrs. Herluf Sorenson and Mrs. Waldemar Jensen attended the funeral of Rev. Peter Kjolhede at Grant, Mich., the first of the week. They also drove to Muskegon and visited Sigurd Johnson and family.

William Neal has taken Harvey Fissette as partner in the Fischer Hotel dining room.

Charles E. Moore has been appointed city attorney, succeeding Merle F. Nellist. Mr. Moore assumed his new duties June 15th.

A special train from Marquette passed thru Grayling Monday, carrying Shriners bound for the big Shriner convention in Detroit.

Mrs. Maurice Gorman left on Thursday for Ann Arbor where she will attend a school of public health for six weeks. Mrs. Gorman holds the position of nurse in the public schools here.

Mrs. Daisy Barnette and Mrs. Sadie Bobenmoyer have dissolved partnership and hereafter the Grayling Restaurant will be operated under the proprietorship of Mrs. Bobenmoyer alone.

To Display World Record Bow Trophies

One of the most unique attractions at this year's National will be a magnificent display of record big game heads which have been taken by bowhunters in North America. The first such display to the public was in 1958 at the National in Grayling. In the past two years several more world records have been set by bowhunters. Among the heads to be on display this year will be giant Alaskan moose, Barren Ground, Woodland and Mountain caribou, Dall and Stone sheep, mountain goat, antelope, Grizzly and Kodiak bear, elk, Blacktail, White-tail, and Mule deer. Each head in the exhibit will be a record holder in the North American Bowhunting Big Game Competitions.

The North American Bowhunting awards started from a recommendation of the National Field Archery Association in the early part of 1957. As a result, the nation's bowhunters now have awards and recognition for all North American trophy animals taken with bow and arrow. One of the chief aims of the organization is to encourage selective hunting. The sportsman who will pass by a number of mediocre heads in his search for one of outstanding dimensions is doing a service for the cause of conservation.

Permitted from the Boone and Crockett Club to use their system for scoring or measuring bowhunting trophies. The Hunting Activities Committee of the NFAA set up minimum requirements for bowhunters at about 25% under the minimums of the Boone and Crockett Club. This paves the way for more competition among the bowhunters, a group which by the very method they hunt cannot be as selective as a sportsman who hunts with a rifle.

The bowhunting yearly competitions are open to any archer. Animals must be taken under the rules of "fair chase" during legal hunting seasons. After being officially registered and judged, the winning entries are listed among the World Records for all time. The records, of course, are changed and kept up to date according to each year's competitions.

The National Field Archery Association hopes by these competitions to encourage selective bowhunting and further establish the bowhunter among the conservation minded sporting groups of the world.

IN MEMORIAM
Fifty years ago
I became your happy bride
As we walked the road of life
You were always by my side
The love we felt that day
We kept through all those years
It helped to brighten our way
Through all sunshine and tears
This day of every year
Is one I will never forget
Because it dates the hour and
The moment when we met.
It seemed to be a miracle
When first I gazed at you
Somehow I felt the feeling of
My dearest dream come true.
I looked up to your smiling face
Somehow I knew that day
That you were mine forever, love
To cherish and obey.
So this day of every year
Is very dear to me,
As I walk the road alone
I have beautiful memories.
Four years have passed.
Many a winter and spring
Often a lonely heartache
For one I loved so dear.
Gone dear husband, gone forever
— How I miss your smiling face
But you remain in my memory
No one can take your place
So I dedicate this day to you
And oh, I hope and pray
That we shall walk together
In another world someday.

Letters To The Editor

June 13, 1960

Sir: As promised in your June 9th issue, the following is a resume of what is at present being done towards bettering the AuSable situation and the particular persons who are attempting to hurry the process along.

On the matter of inadequate facilities at existing camp grounds and stopping points, Mr. Bruce Smith heads a committee consisting of Ray Snyder, Florence Borchers, Warren Stephan and Jim Wakeley, with the objectives being more toilet facilities at these points, water wells where feasible, and toward these ends, this committee has the cooperation of the area conservation authorities, and at the present, this committee is awaiting decisions of the Conservation Commission which has been contacted for the purpose of establishing legality of different procedures, etc.

The local canoe livery have proposed putting in their own sanitary facilities at particular camping spots, and water wells if possible, to entice canoeists to stop at these points rather than on private property, which should be a very helpful idea, providing the canoeists are instructed to stop at these points upon pushing off from the liversies.

The sign and informational end of this project is being handled by Bud Hunter and Don Feldhauser, and should ultimately consist of signs at all liversies stating facts concerning littering, cutting of trees, and other illegal and undesirable acts, signs at the bridges, and points where canoeists are supposed to camp. Such points should correspond by number with canoe livery maps.

The litter barrel situation is my responsibility, and barrels are being donated to the cause, and will be painted and placed along the stream at crucial points this week. I will be meeting with the Crawford Co. Road Commission Friday, June 17, to ascertain just how much cooperation can be expected from the county towards picking up these barrels and emptying them on a regular basis.

There is a meeting of AuSable property owners association members between now and July 2, which will complete the organization of this association.

With the backing of these members—and a great number of them live on the stream and understand the problems involved—many forward steps can be taken toward educating the canoeists and fishermen.

Anyone who read Sunday, June 12, Detroit Free Press will take note that the tone of publicity concerning the AuSable is undergoing a slight change and further good publicity for the area can be in evidence if everyone connected with this project does his part as agreed on.

I will be contacting all persons

mentioned above, this week, for the purpose of assisting and coordinating efforts where possible, thereby speeding up any effort which may be required.

A report will be prepared, and mailed to each organization head, canoe livery, and property owner on the stream as soon as feasible.

Until that time, by pushing the project everyone in the area can benefit, and enjoy a better canoe trip, fishing trip, and enjoy a residence along the stream.

Bud Stephan

Letters To The Editor

Dear Bob:

This is a copy of a letter that I have written to the Director of the Department of Conservation, relative to the multiple use problems of the AuSable river. They are my own thoughts, and not those of the Commission or of the Department of Conservation.

Sincerely,
George A. Griffith

Grayling, Michigan
June 9, 1960

Gerald E. Eddy, Director
Department of Conservation
Lansing 26, Michigan

Dear Jerry:

The letter from Bruce Smith, of the Jolly Redskin Canoe Livery, reports on a meeting held in Grayling, attended by the operators of canoe liversies, guides and some property owners. This outlines some of the problems that they feel need to be solved to relieve some of the problems involved in the multiple use of the AuSable

River.

I feel that we should clarify our position on the use of fishing sites. Many people understand that our fishing sites are available for camping by people using the river as well as house trailers and permanent camping similar to the camping we have in our state parks and forest campgrounds. Since these fishing sites are bought with license money and Dingell-Johnson funds, the purpose of these sites is primarily for fishing.

Inasmuch as the canoe livery business has developed into quite an extensive volume, there should be an obligation on their part to make some effort to take care of camping facilities for their customers. This is no different than the duck blinds, such as those on Saginaw Bay, which are commercial enterprises on state property or, in this case, state water.

We have a charge for camping in our state parks and an additional charge for electricity where available. It seems to me that some effort should be made by canoe liversies to obtain camp sites for their customers and, if necessary, make a reasonable charge for these camp sites, to be incorporated in the total cost of the canoe trip. This would enable them to build toilets, drill wells, and possibly furnish firewood for their campers. Please discuss this at your next staff meeting and advise me as to the recommendations of the staff on this problem.

The property owners should be commended for their public-spirited move in keeping their lands free from posting.

Sincerely,
George A. Griffith
Commissioner
